IEG PI NOTICE

No. 70-75

TITLE/SIGNIFICANCE:

VHF omnirange (VOR) Aerial Navigation Station in China

COMMENT: This is the first VOR station identified in China and is similar to free world VOR systems. It consists of a hemispherical dome measuring 20 feet in diameter and a metal lattice counterpoise. The dome and counterpoise are mounted on a concrete or masonry tower. The VOR is part of Kun-ming Wu-chia-pa Possible Electronics Facility and is also near Kun-ming Wu-chia-pa Airfield. Underground communications cable connects the VOR with the airfield and three other military installations.
